

- g. Snow cannot be piled over culvert drainage structures or otherwise prohibit the flow of water to storm water management areas. Contractor must refrain from pushing snow so as to block sidewalks, entrances, handicap accessible ramps, line of sight, etc. Safety and accessibility of all school locations is paramount.
- h. Report damages as soon as practical to the lead custodian/school administration/contract administrator; damages that are obviously the fault of the contractor's employees but are not repaired will be deducted from a subsequent payment to the contractor.
- i. Continued and consistent operation of our schools is of the utmost importance to our community and therefore, **WCPS must be a priority account**. Contractor is to be on location within one (1) hour of the end of snowfall or notification by the designated Maintenance and Operations personnel.
