ADDENDUM 2

To: All Prospective Offerors
From: Scott Bachtell, Supervisor of Purchasing
Reference: RFP 2021-18 Elementary Math Core Resource

Proposal Due Date & Time: January 26, 2021 by 11:00 AM EST

This addendum is being issued to provide additions, corrections, clarifications and answers to certain questions raised referencing the original RFP packages and any resultant contracts for the above RFP.

Clarifications:

1. The Price Proposal has been updated. This Price Proposal shall be submitted with your RFP submission.
2. The Technology Form shall be completed for any submissions that include digital components. This form requests basic technology specifications and Information Technology contacts for products, so that the WCPS technology department and content supervisors can review for alignment with state and federal law, as well as our current WCPS technology infrastructure. The WCPS Digital Tool Evaluation Rubric will provide vendors with information about the features that will be reviewed and evaluated.

Questions:

1. Question: Is the district looking for a traditional pedagogical approach to math instruction, or a problem-based approach?

Answer: WCPS is interested in reviewing solutions with either approach. If a vendor has multiple solutions, the vendor should prioritize the solution that best meets the expectations provided on the rubric. If the vendor believes there is more than one solution that strongly meets the expectations of the rubric, then no more than one solution for a traditional approach and no more than one solution for a problem-based approach may be submitted (no more than 2 total submissions per any one vendor).

Thank you for your interest in bidding with Washington County Public Schools and we apologize for any inconvenience this may have caused.

Sincerely,

Scott Bachtell

Scott Bachtell
Supervisor of Purchasing

cc: Amy Seylar, Supervisor of Mathematics and Science

This Addendum is One (1) page and includes an updated Attachment A – Price Proposal and the Technology Form
